Date: 22nd February 2024

Subject: Seeking permission to conduct an event "Versioning" in Prerana Auditorium.

Respected Sir,

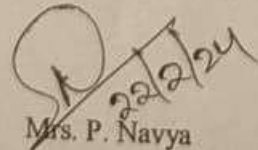

We, the team of EpsilonPi, with respect to the above subject, request you to grant us permission to conduct an event "Versioning" in the Prerana Auditorium on 2nd March 2024 from 10:00 am to 4:20 pm.

The event will be about teaching students how to use Git and Github and also give them a basic idea of the working of Prompt Engineering. We will also help students to build a portfolio using Prompt Engineering. Through this event we hope that the students become prepared for a future where collaboration, version control, and interaction with AI tools are essential for success.

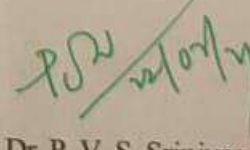

We look forward to your consent and approval.

Thanking you.

Yours sincerely
EpsilonPi
